

Year 2011/2012 and the third Incremental Auction (January 4–8, 2010) for Delivery Year 2010/2011 and asks the Commission to take action as necessary to correct this condition, if it agrees with the Market Monitor's views regarding non-competitive market outcomes.

PJM filed a responsive letter on April 29, 2009, containing correspondence between PJM and the Market Monitor. In this correspondence, PJM stated that, in its view, an expedited tariff change is not necessary, and that it believes that the prices produced by use of the ACR values accepted in the March 26 Order will lead to rates that are within the range of reasonable variation. PJM also stated that the RPM market design does not anticipate the default ACR values changing for each Delivery Year, and recommends that rather than seeking a tariff change on an emergency basis, PJM's stakeholders should consider this issue and, if they so choose, present this issue to the Commission in an orderly fashion. Therefore, while indicating that ACR changes are not feasible or advisable for the June 2009 Incremental Auction, PJM commits to add the topic of default ACR values to the agenda for the Capacity Markets Evolution Committee as an item to be discussed and resolved by stakeholders by September 1, 2009.

What Information Is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does This Apply to?

Affected entities: Entities potentially affected by this action are business or other for-profit; as well as State, Local, or Tribal governments.

Title: Part B Permit Application, Permit Modifications, and Special Permits.

ICR numbers: EPA ICR No. 1573.12, OMB Control No. 2050-0009.

ICR status: This ICR is currently scheduled to expire on November 30, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 3005 of Subtitle C of RCRA requires treatment, storage or disposal facilities (TSDFs) to obtain a permit. To obtain the permit, the TSDFs must submit an application describing the facility's operation. There are two parts to the RCRA permit application—Part A and Part B. Part A defines the processes to be used for treatment, storage, and disposal of hazardous wastes; the design capacity of such processes; and the specific hazardous wastes to be handled at the facility. Part B requires detailed site specific information such as geologic, hydrologic, and engineering data. In the event that permit modifications are proposed by the applicant or EPA, modifications must conform to the requirements under Sections 3004 and 3005.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 262 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 109.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.3.

Estimated total annual burden hours: 32,477 hours.

Estimated total annual costs: \$7,517,000. This includes an estimated burden cost of \$1,814,000 for labor and an estimated cost of \$5,703,000 for capital investment or maintenance and operational costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: May 15, 2009.

Director, Office of Resource Conservation and Recovery.
